New Wells in Oil Spotlight

Completion in Avoca Pool and Two Completions in Wimberley Field Get Attention This Week

Completion of a well in the Avoca field, due east of Hamlin, and completion of two wells from the Wimberley field highlighted oil front developments this week.

In the Avoca pool, Humble Oil & Refining Company plugged back from the Ellenburger its No. 5 R. B. Spencer. It was completed at 3,287 feet after plugging from 5,250 feet.

Texas Railroad Commission gauge showed 903.36 barrels per day from the completion. Location is 660 feet from the south and east lines of the southwest quarter of Section 195, BBB & C Survey.

Two completions are reported for the Wimberley field.

Harry Hines No. 5 A. M. Wimberley flowed 132 barrels in 24 hours through 3-8 inch choke with 450 pounds pressure on casing and 50 pounds on tubing from total depth of 2,446 feet.

Maracaibo Oil Exploration Corporation No. 3 Wimberley flowed 138.93 barrels in six hours through 3-4 inch choke from total depth of 2,238 feet with 450 pounds pressure on casing and 350 on tubing.

In the Leuders shallow pool completion is due on the George D. Morgan Trustee and Con-Tex Petroleum Company No. 19 Alexander Trust Estate, north extension to the pool and offset to the pool's largest producer. Eight-inch casing was set to 1,420 feet.

On the west side of the pool completion is also due on the W. H. Roark No. 4 W. H. Mywatt, on which pipe was set to the Fry Sand at section of the pool.

Weather, it is reported, has delayed completion of the Crown Central Petroleum Company No. 1 J. R. Daniell, second attempt to extend Gunsight production north of the Wimberley field. Drilling was below 2,000 feet and completion is due this week.

Just a mile north of Hodges, in southern Jones County, verdict is also due on the H. L. Hunt of Midland No. 1 Leonard McCoy, after acid treatment of the Gunsight.

Five miles northeast of Merkel, the Eltex Ltd. No. 1 Claude Russell was drilling ahead below 2,657 feet after a long delay while bailer was drilled up. It is 330 feet from the southwest corner of the north half of C. F. Warren subdivision of Block 56, DeWitt County School Land.

in southwestern Jones County, where interest has been focused, and 12 miles northwest of Merkel, the Rhodes Dri'ling Company et al No. 2 Swan, which failed to find production in the Ellenburger last weekend, is waiting on cement after plugging back from 5,448 feet, total depth.

Operators, it is understood, plan a test at the 2,800-foot level and then make shallower if necessary.

Four miles south of Merkel, where Central Drilling Company No. 1 J. R. Ingram, resumed work this week. The test indicated a new pool last the Hamlin Hotel. month but drilled into water. Pipe has been set at 3,110 feet, and operators plan to perforate for comple-

which has aroused considerable in- leum. terest in area oil circles, Mohawk Drilling Company No. 1 Marie Baker, Five of Pre-Fabricated has been plugged and abandoned at 5,512 feet with no shows reported.

The Mohawk test was 2,711 feet from the north and 660 feet from the west lines of C. Winter Survey 8, and Henry Grimes Survey 198.

Hamlin Compress Puts Through 40,000 Bales

Herald learned this week. R. H. McCurdy is manager of the

ABOUT SUB RATES

In order to clarify The Herald's policy on out-of-the-county subscriptions, this statement is made for the benefit of all our friends and readers:

Because the postage rate increases sharply on all papers going over 50 miles from publication offices, The Herald charges \$2 for subscriptions going out of Jones and adjoining counties, whereas The Herald within 50 miles of Hamlin is only \$1.50 per

In most cases it costs more to mail The Herald out of the first zone than the 50-cent price increase brings in, but this cost is absorbed by the publisher. Subs going some distance really do not net as much as local subscriptions.

Increased rates for outside of 50-mile zones have been charged by practically all other newspapers for years. This, we trust, will clear up the local and "long distance" rates for our readers. But you can rest assured that we will be glad to keep The Herald going to the place next to our office, to New York, Okinawa, India, China, Yalta or just anywhere you may order it sent.

VICTORY CLOTHING COLLECTION POSTS LOCATED IN FIRMS

With Hamlin's Victory Clothing Collection drive well underway here this week, Chairman Clarence Bailey urges donors to place contributions at their earliest convenience in one increased this year. of the towns' collection depots.

1,410 feet. Humble is laying a pipe- Can Wear?" has become the watchline for connection with the western word in this area, as people gather ment must be continued for years. used, serviceable clothes and garments for relief of war refugees in the bombed-out cities of Europe.

> Attention of Herald readers is called to Hamlin's collection depots for used clothes. They are conveniently located at the following places: Hamlin Post Office, Farmers & Merchants National Bank, City Hall Hamlin High School and Elementary

The main assemblage building is between Spears & Warren Variety Store and the Firestone Store.

Ads on the Victory Clothing drive and being sponsored in this week's Herald, and are being paid for by Hamlin Motor Company, F. & M. Bank and Bryant-Link Company.

Dimes March **Gets Sendoff**

Hamlin Cooperating Well in Drive To Raise Funds for Fighting Polio-Street Booth Slated

With the March of Dimes campaign, opened Monday, well underway in Jones County this week, people of Hamlin and the county are urged by County Chairman C. W. Bartlett of Anson to step up their contributions as rapidly as possible.

Last year Jones County people contributed 17,106 dimes to the campaign, which went to help the most worthy cases of infantile paralysis here and elsewhere over Texas.

The March of Dimes is entirely voluntary, states Mrs. V. H. Bond of Hamlin, vice director of women's work. Half of the contributions raised in the county will remain here for care and treatment of local pa-

Mrs. Bond states that a March of Dimes drive will be staged on the strects of Hamlin Saturday, January 26 if the weather permits. Jars have been placed in many business houses to receive donations.

People of the area well remember how severe the polio epidemic in the summer of 1945 was and how hospitals at paralysis foundation units were literally "covered up" with

In addition to different kinds of entertainment, various means of cash collections are being planned that the Jones County contribution

It is surprising to note that treat-"What Can You Spare That They ment of a polio patient costs an nual Chamber of Commerce report

Since no person can tell where infantile paralysis will strike in 1946, Hamlin and Jones County need to be well prepared to meet the attack-no matter where it may strike. Half of the March of Dimes contributions go to the National Foundation for Infantile Paralysis.

Witt's Cornish Entries Place in Wichita Show

tion of those in need, and

great emergency.

GIVE TO THE VICTORY CLOTHING DRIVE

Have you donated your share of used, serviceable clothing yet to the Victory Clothing Drive? Olive Oyl gives Hamlin area people a good hint in suggesting that clothes for millions of frezing war refugees be contributed at once. It should be a privilege and it is our Christian duty to give generously to so great a cause. In this atomic, fast moving age we are indeed our "brother's keeper." Local receiving points are ready.

CC DIRECTORS TO **PLAN TUESDAY FOR** ANNNAL BANQUET

Annual directors' meeting of the to help in the drive. It is hoped be staged Tuesday afternoon, Jan-

At the directors' conclave the an-

ed for holding a Chamber of Commerce banquet, to be held some time in February.

Chambr of Commerce officials point out that the annual CC membership banquets were not held during the war years, but with the war over and things returning to normal the annual banquet will be held this year. Arrangements are being made to secure a speaker for the occasion.

William Sampson Gets Discharge From Navy

William Sampson, 22, seaman first Witt's White Laced Red Cornish class of Hamlin, has received his entries placed first in three divisions honorable discharge from the U. S.

Sampson served 21 months in the Placings by Witt's entries in the Pacific Theater of Operations.

The Hamlin man's wife and two Cocks-first, third, fourth and fifth; children reside here. He took part hens-first, second, third and fourth; in the Saipan, Leyte, Luzon and Iwo Jima campaigns. Sampson received fourth; pullets-second, third, fourth his discharge at the Camp Wallace Personnel Separation Center.

Fine Wetting Falls in Area

Snow and Sleet of Week-End Set Pattern for Slow Rain and More Snow First of This Week

Hamlin area range and farm were greatly benefitted last Thursday by snow that was preceded by rain and sleet. The New Year's first install. ment of moisture marked up .43 of an inch in all.

Additional moisture fell Monday in the area, which by night Monday totaled more than one-half inch.

During the early morning hours last Thursday intermittent waves of fine, peppery sleet broke through the overcast to give Hamlin a taste of winter. Sleet was sandwiched in with rain until clouds in the graying skies shifted about 8:45 a. m. and changed air currents brought snowwith snow flakes seemingly the largest that have fallen here in years.

Following Thursday's snow, dirt roads were slippery and dangerous Friday when a brief "thaw" set in.

Overcast skies Saturday morning brought the temperature down to the freezing point-32 degrees-but by mid-afternoon sunshine and a diminishing of the week-end norther brought considerable relief from the weather.

Area farmers and ranchers report small grains considerably helped by the sleet and snow. Mildness of the spell helped not only bring livestock through in good shape, but kept "shrinkage" of feeder stock at a The first-of-the-week rain, which

began about 1:30 o'clock Monday morning, fell slowly and proved a ground soaker. Not only were fields of small grain benefitted, but area farm lands was greatly helped by

Rainfall for 1946 to date through Monday stood at .91 of an inch.

Due to mild temperature that prevailed Monday, livestock got through with a minimum of damage.

Jones County One of 11 in Area Showing Cotton Yield Increase

Jones County is one of the 11 West Texas counties, according to West Texas Today, West Texas Chamber of Commerce magazine, which reported more ginnings than a year ago.

In addition to Jones, other counties reporting more cotton ginned in 1945 than in 1944 include Donley, El Paso, Gray, Hall, Hudspeth, King, Knox, McLennan, Runnels and Tom

Generally the cotton crop in West Texas was very short. New estimate for the nation is 9,195,000 bales, compared with 9,368,000 bales estimated six weeks ago.

Harvesting acreage, it will be significantly noted, has fallen from the 10-year average of 25,616,000 acres to 17,688,000 acres for 1945.

Hawley Negro Indicted For Burglary of Home

Among indictments returned last week by the 104th District grand jury at Anson was one against Jim Garner, negro, who was indicted on a charge of burglarizing a negro home near Hawley.

Garner, the indictment sets forth, burglarized the residence of another negro near Hawley December 11 and took \$53 in money.

EARLY POSTMASTER

While in town Monday O. R. Burnham, who lives three miles north of McCaulley, in speaking of Hamlin, recalled how his father, the late B. H. Burnham, built Hamlin's first house.

B. H. Burnham moved to this country in 1889, and settled four miles west of Hamlin. He ran the Hamlin post office for a number of years, and will be remembered by old-timers of this area.

Game to Throckmorton

by sports fans of this area, defeated Hamlin's Pied Pipers by a tally of

This game gave Hamlin a standing in the district of .333 per cent, with one win and two losses out of three conference games. Throckmorton and Anson had perfect records with no losses through the week-end.

1e Ollie Ray Hennington Weds Santone Girl

Betty Ruth Morrison, daughter of Mr. and Mrs. Dale N. Morrison of San Antonio, became the bride of Ollie Ray Hennington of McCaulley in the Goddard Memorial Church in Fort Smith, Arkansas, last Sunday at 5:00 o'clock. The Rev. O. E. Goddard, grandfather of the bride, performed the ceremony.

The bride is a graduate of Mc-Murry College, Abilene, and has done graduate work at S. M. U. and the University of Hawaii. Mr. Hennington is a graduate of McCaulley High School and McMurry College. He has recently been discharged from the armed services, having served overseas in Australia, New Guinea and the Philippines. He will enroll in the University of Texas soon. Ollis Ray is the son of Mr. and Mrs. O. T. Hennington of McCaulley. His sister, Mrs. Paul Benhing, and husband of Oklahoma attended the wedding. Our congratulations to this fine young couple.

Phelps & Bell

"Hey, Ref-aren't you out of bounds?"

In basketball or business, Americans expect fair play all down the line. In basketball, the referee is there to see that the game is played according to the rules. But he's not a

In business, the referee is the government, which establishes regulations for fair practices.

But when government goes beyond governing and into business and competes with its own tax paying citizens, the American tradition of fair play is set aside. The referee then becomes a player, and he takes advantages that are denied to all the other players in the game.

Take government-owned or subsidized electric power systems, for example. They pay no taxes. When they need money, they call on our U. S. Treasury funds and get it at little or no interest. If they have loses, through political management, why worry? You, as a taxpayer, will have to take

Business-managed power systems, on the other hand, do not have these special government privileges. They pay their full share of taxes, pay fair interest on any loans.

It is a tribute to American self-reliance that tax-paying, self-supporting companies supply over four-fifths of the tremendous amount of electricity used in this country.

The same forethought and experience which furnished the required electric power to win a global war will continue to assure America dependable-and cheap-electric service for a postwar world. And businessmen can do the job better than bureaucrats.

Entered at the Post Office at Hamlin, Texas, for transmission through the mails as Second Class Matter, according to an Act of Congress, March 3, 1879.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon being brought to the attention of the management.

WINGS OVER HAMLIN WON'T HAPPEN

With each passing month the younger men of Hamlin run into a new reason for an airport for Hamlin. Just mere talk of the project is accomplishing nothing, and the time is rapidly approaching when we must take action if we really want an airport here.

Already, the major air lines of the nation have mapped routes for feeder lines from their main lines-lines that will haul commercial freight Field, has held the place for some mother is the former Florene Smith. and express and make the orchards of California and Florida not more than six to eight hours away.

Aviation, with addition of radar ground control for bringing in planes safely during any kind of weather, plus jet speeds of 500 to 600 miles per hour, make it imperative that all communities which want a part in the gigantic program ahead have something definite to offer airlines and private pilots in the way of an adequate airport and service facilities.

PAY YOUR POLL TAX AND VOTE!

Lest you forget, paying your poll tax before February 1 is one of the most important contributions you can make as a good citizen to the American form of government.

In this election year politics is getting back to normal, and only through full strength voting by citizens here and elsewhere over the nation can we elect the kind of county, state and federal officials who will give us the truly representative type of government.

Unfortunately we do not have another political aspirant yet to color Texas politics like James E. Ferguson, but we doubtless will run across a candidate before the 1946 primary who will add just as much heat and vigor to politics.

It seems as though W. Lee O'Daniel and his Hill Billies are now in some kind of a "dormant" political stage, but one cannot really blame W. Lee O. right now because he seems to be a pretty big Washington apartment house owner-at least able to move tenants around as he chooses-and he seems to have made pretty good from his political news-

Unless every citizen pays his poll tax here and elsewhere, we might wake up after elections and find we had a governor who went in for jitterbugging, a lady senator who is "agin" wearing nylons-or going to extremes, a trusted public servant preaching heresy by declaring a woman's place is in the home!

GOVERNMENT IS STILL RIDING HERD

The United States Department of Agriculture still seems to be riding herd with the livestock situation, and stockmen of this area are hopeful that some of the government hobbles will be untied before summer arrives.

Latest blast at the livestock industry was given over the week-end by Clinton P. Anderson, secretary of agriculture, who advises cattlemen pressing for removal of price controls-along with subsidies June 30-not to "holler until you're hurt."

Anderson, among other things, contends at this time there are too many cattle in the west-from a long range feeding capacity-and urgently requests sotckmen to get rid of "flinyt-boned old critters" and cull down their herds.

Well do Hamlin area ranchers remember how OPA got the meat situation in such a mess that no one could tell the past three years where the stockman would find himself. Well do we remember how the nation's livestock population was "culled" in 1934 when the government killed hundreds of thousands of cattle over the country. Mr. Anderson's statement that more culling needs to be done is about five years late here, for herds in this area have already been culled of unprofitable animals, and blood lines of herds have been consistently improved by the best bulls money could buy. If we have less talk and more action from Washington, we feel the cattle industry can well hold its own and keep plenty of beef going to market for any reasonable requirements!

Silver and gold are not the only coin; virtue too passes current all over the world .- Euripides.

Prudence is the necessary ingredient in all the virtues, without which they degenerate into folly and excess.-Jeremy Collier.

THE NEWNESS OF CHRISTIANITY

CHRISTIANITY is an original religion. It was not handed down by tradition; it was not the outgrowth of human philosophy or reason; it was not compiled from preceding religions, but it was new.

First, Christianity is the only religion thus far developed in the world that is adapted to all mankind, to every individual, race and nation. It commands all that is for the best good of man; it forbids all that is injurious and wrong.

Second, Christianity is new in that it is the only religion in the world that promises complete forgiveness of sins (Hebrews 10:3-11, II Corinthians 5:17).

Third, Christianity is new or original in that it directly promises eternal life-an individual, personal, immortal spirit clothed with an immortal body. The religion of Jesus answered the question of Job of the long ago (Job 14:14). See also I Corinthians 15:42-57).

Fourth, Christianity is new or original in that it teaches the fatherhood of God and the brotherhood of man. There is nothing in heathen religion that teaches this relationship. No such word as "mankind" is found in the human language until the days of Jesus. He taught all men to pray, "Our Father who art in heaven." Paul said, "He hath made of one blood all nations of men to dwell on all the face of the earth" (Acts 17:24).

Friends, this new religion of Jesus is the world's only hope. What is your attitude toward it? What efforts are you putting forth to see that your children are taught it? Frightful responsibility! And yet so lightly treated!

POT-SHOTS FROM MCCAULLEY

BY GEO DARDEN

Mrs. E. C. McCloud of Brownfield, 1 for the New Year. Thanks. Mrs. McCloud is the former Cleo Akins of McCaulley and now a teacher in the Brownfield schools.

A. U. S. Army court has recently condemned a United States soldier to death for killing two Japs. Our boys have been taught to hate and kill Japs and, because we won the war, it's still a crime to kill people who are even worse than rattlesnakes. If the case had been tried in justice court at McCaulley a few months ago the soldier would have gotten justice along with a spray of carnations. But the case was tried in Osaka, Japan. Americans should bombard the president with letters asking him to stay the execution.

Lamont Hailey, who has been coming to McCaulley with his airplane for several Sundays and taking up passengers, has announced for coun- in New Mexico. Mrs. Galleway has ty judge of Fisher County. If he been teaching Eng'ish in McCaulley buzzes your house and drops his card High School for the past several -well that would be a good way to months. Albert Jr. has recently electioneer; at least, faster than a been discharged from the U. S. spotted pony.

Mr. and Mrs. Jack Johnson and on a farm east of McCaulley. children of Borger visited last weekend in the home of her parents, Mr. and Mrs. J. T. Rhoten.

We see in the paper where Senator Pappy finally ousted the 80-yearold man from his big apartment pers. If we look back on the record house in Washington by order of the of some of our congressmen we find court - not because the old man wouldn't or couldn't pay his rent, but just a case where Pappy kicked per year for services "not rendered." the old folks around.

A Mrs. Milener has been employed as a teacher in the McCaulley school, taking the place of Sallie Dick Parker, who resigned last week to get married.

Betty Ruth Morrison became the bride of Ollie Ray Hennington of McCaulley at Fort Smith, Arkansas, Sunday. (Editor's note: Because of the general news value of Mr. Darden's account of the wedding, we are moving his story to the woman's particulars on the wedding turn to page two).

Be Quick To Treat

your cough, chest cold, or acute bron-chitis is not treated and you cannot af-ford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains

no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

If it doesn't rain 'em out there sends us her check for The Herald will be another wedding in McCaulley this week and possibly there will be more "showers" coming up.

> Nosing around, this scribe asked one discharged sailor if he planned on getting married. He said: "Man, do you think I'm crazy? I just got out of one war."

> The Milsap house is being torn down, and we hear it will be moved

Mr. and Mrs. C. E. Dick Jr. of Crosbyton spent last week-end in the home of his parents, Rev. and Mrs. C. E. Dick, in McCaulley.

Parker-Galloway

Sallie Dick Parker, daughter of Rev. and Mrs. C. E. Dick and Albert Galloway Jr., were married Monday, January 7. Thus far we know not any of the particulars, and we tear they are spending their not cymoon Army. They will make their home

COMMENT NO. 1

We have in Congress some few brilliant and honest members; others are even worse than whipper-snapabsolutely a blank, who have done nothing but draw a salary of \$10,000

The whole world is in a turmoil Trying times ar ahead even for men of ability. If the voters fail to cast their votes wisely, then the American people are to blame for any breakdown in our form of govern-

Men cannot live by bread alone; neither can man-made laws do justice to civilization unless the men who make the laws are honest, capable and well qualified. To some extent people are like sheep-when one page of today's Herald. For more starts they all start; if the leader goes over the cliff, so do the followers. We must be more certain of the ability of our leaders if we expect to survive as a world pattern. Democracy as we know it is being tried as never before, not only in America, but the people of the earth are looking in our direction for leadership. Will we, by our ignorance at the ballot box, elect to office either local, state or national men and women who have been tried and found wanting?

> Frankly, neighbor, if you pay \$1.75 for a poll tax and you go to the polls to vote and know not what or how to vote for the best interests of your country, then your \$1.75 has been unwisely spent and you and your country are no better off than the fellow who stayed at home and twiddled his thumbs while Rome burned. Yes, we all are mistaken

OPA Fights Movement To Raise Butter Ceiling

Hamlin people, already taking note of the high cost of living, received another surprise this week when considerable strength was revealed behind a movement to increase the price of butter 18 cents per pound.

Hamlin folks, however, have an ally in the Office of Price Administration, which is fighting the price hike "tooth and toe nail."

Hamlin folks consume over 1,000 pounds of butter per month, and find it getting scarcer. A sharp scarcity of butter during the first three months of 1946 is predicted, and consumers do not need the extra burden, it is felt, of higher prices.

at times in candidates-some make flowery speeches, some pick the banjo and sing for votes, others use the whispering campaign method, but, after all is said and done, there still remains that question of qualification, ability and honesty .- A Darden-

Warning!

Because of recent interference with Fire Department personnel in fighting fires, we call attention of the people of Hamlin to the following ordinance . . .

Section 1.—Upon the approach of any vehicle or apparatus of the Fire Department of this City answering an alarm of fire, the driver of any vehicle other than a vehicle of the aforesaid Fire Department shall drive as closely as possible to the right hand curb and stop, and shall not follow within three hundred (300) feet after the said vehicle o rapparatus of said Fire Department has passed. No vehicle, except by direction of the Chief of the Fire Department, or other officer of said Fire Department, shall approach or park within three hundred (300) feet of a fire at any time.

Section 3 .- Any person who shall violate in any way any of the provisions of this ordinance, or who shall fail or refuse to comply therewith, shall upon conviction be fined any one sum not less than \$5.00 or more than \$100.00.

City officers are to enforce provisions of the ordinance by fines if necessary. By order of the

New Wells in Oil Spotlight

Completion in Avoca Pool and Two Completions in Wimberley Field Get Attention This Week

Completion of a well in the Avoca field, due east of Hamlin, and completion of two wells from the Wimberley field highlighted oil front developments this week.

In the Avoca pool, Humble Oil & Refining Company plugged back from the Ellenburger its No. 5 R. B. Spencer. It was completed at 3,287 feet after plugging from 5,250 feet.

Texas Railroad Commission gauge showed 903.36 barrels per day from the completion. Location is 660 feet from the south and east lines of the southwest quarter of Section 195, BBB & C Survey.

Two completions are reported for the Wimberley field.

Harry Hines No. 5 A. M. Wimberley flowed 132 barrels in 24 hours through 3-8 inch choke with 450 pounds pressure on casing and 50 pounds on tubing from total depth of 2,446 feet.

Maracaibo Oil Exploration Corporation No. 3 Wimberley flowed 138.93 barrels in six hours through 3-4 inch choke from total depth of 2,238 feet with 450 pounds pressure on casing and 350 on tubing.

In the Leuders shallow pool completion is due on the George D. Morgan Trustee and Con-Tex Petroleum Company No. 19 Alexander Trust Estate, north extension to the pool and offset to the pool's largest producer. Eight-inch casing was set to

On the west side of the pool completion is also due on the W. H. Roark No. 4 W. H. Mywatt, on which pipe was set to the Fry Sand at 1,410 feet. Humble is laying a pipeline for connection with the western section of the pool.

Weather, it is reported, has delayed completion of the Crown Central Petroleum Company No. 1 J. R. Daniell, second attempt to extend called to Hamlin's collection depots the attack-no matter where it may Wimberley field. Drilling was bethis week.

Just a mile north of Hodges, in southern Jones County, verdict is also due on the H. L. Hunt of Midland No. 1 Leonard McCoy, after acid treatment of the Gunsight.

Five miles northeast of Merkel, the Eltex Ltd. No. 1 Claude Russell was drilling ahead below 2,657 feet after a long delay while bailer was drilled up. It is 330 feet from the southwest corner of the north half of C. F. Warren subdivision of Block 56, DeWitt County School Land.

in southwestern Jones County, where interest has been focused, and 12 miles northwest of Merkel, the Rhodes Dri'ling Company et al No. 2 Swan, which failed to find production in the Ellenburger last weekend, is waiting on cement after plugging back from 5,448 feet, total depth.

Operators, it is understood, plan a test at the 2,800-foot level and then make shallower if necessary.

Four miles south of Merkel, where a new oil pool is indicated, West Central Drilling Company No. 1 J. R. Ingram, resumed work this week. The test indicated a new pool last month but drilled into water. Pipe has been set at 3,110 feet, and operators plan to perforate for comple-

tion in an upper zone at 2,742 feet. The Haskell County deep test, which has aroused considerable interest in area oil circles, Mohawk Drilling Company No. 1 Marie Baker, has been plugged and abandoned at

5,512 feet with no shows reported. The Mohawk test was 2,711 feet from the north and 660 feet from the west lines of C. Winter Survey 8 and Henry Grimes Survey 198.

Hamlin Compress Puts Through 40,000 Bales

for the 1945 cotton season approxi- the heaters get in, it will take only mately 40,000 bales of cotton, The two days to finish the 11 houses Herald learned this week.

R. H. McCurdy is manager of the ern plants of its kind in this area. I the Hamlin area fine.

ABOUT SUB RATES

In order to clarify The Herald's policy on out-of-the-county subscriptions, this statement is made for the benefit of all our friends and readers:

Because the postage rate increases sharply on all papers going over 50 miles from publication offices, The Herald charges \$2 for subscriptions going out of Jones and adjoining counties, whereas The Herald within 50 miles of Hamlin is only \$1.50 per

In most cases it costs more to mail The Herald out of the first zone than the 50-cent price increase brings in, but this cost is absorbed by the publisher. Subs going some distance really do not net as much as local subscriptions.

Increased rates for outside of 50-mile zones have been charged by practically all other newspapers for years. This, we trust, will clear up the local and "long distance" rates for our readers. But you can rest assured that we will be glad to keep The Herald going to the place next to our office, to New York, Okinawa, India, China, Yalta or just anywhere you may order it sent.

VICTORY CLOTHING COLLECTION POSTS LOCATED IN FIRMS

this week, Chairman Clarence Bailey that the Jones County contribution at their earliest convenience in one increased this year. of the towns' collection depots.

word in this area, as people gather used, serviceable clothes and garments for relief of war refugees in the bombed-out cities of Europe.

Gunsight production north of the for used clothes. They are conveniently located at the following places: low 2,000 feet and completion is due | Hamlin Post Office, Farmers & Merchants National Bank, City Hall, Hamlin High School and Elementary

> The main assemblage building is between Spears & Warren Variety Store and the Firestone Store.

Ads on the Victory Clothing drive and being sponsored in this week's hibit, held from January 3 through 6 Herald, and are being paid for by Hamlin Motor Company, F. & M. Bank and Bryant-Link Company.

Need of clothing and garments for overseas relief is tremendous, and only by every citizen doing his part can the thousands of freezing and undernourished people overseas escape mass death by exposure.

The town's Victory Clothing campaign is being sponsored by the Hamlin Lions Club and through Wednesday had met with a good initial

Jim H. King Opening New Supply Concern

Jim H. King is this week opening King's Supply in the same building as Durham's Radio Shop and Hamlin Western Union office, just north of the Hamlin Hotel.

Mr. King is handling Phileo products, glassware, and car, plate and builders' glass, and picture framing. He also handles Thor washers and gladirons, window shades and lino-

Five of Pre-Fabricated Units at Celotex Ready

Remainder of the 16 homes under construction will be finished as soon The Hamlin compress has pressed as hot water heaters arrive. When underway.

Acting Manager Lewis came here compress, which is one of the mod- from Oklahoma, and says he likes

Dimes March Gets Sendoff

Hamlin Cooperating Well in Drive To Raise Funds for Fighting Polio-Street Booth Slated

With the March of Dimes campaign, opened Monday, well underway in Jones County this week, people of Hamlin and the county are urged by County Chairman C. W. Bartlett of Anson to step up their contributions as rapidly as possible.

Last year Jones County, people contributed 17,106 dimes to the campaign, which went to help the most worthy cases of infantile paralysis here and elsewhere over Texas.

The March of Dimes is entirely voluntary, states Mrs. V. H. Bond of Hamlin, vice director of women's work. Half of the contributions raised in the county will remain here for care and treatment of local pa-

Mrs. Bond states that a March of Dimes drive will be staged on the strects of Hamlin Saturday, January 26 if the weather permits. Jars have been placed in many business houses to receive donations.

People of the area well remember how severe the polio epidemic in the summer of 1945 was and how hospitals at paralysis foundation units were literally "covered up" with

In addition to different kinds of entertainment, various means of With Hamlin's Victory Clothing cash collections are being planned

It is surprising to note that treat-"What Can You Spare That They ment of a polio patient costs an ment must be continued for years.

Since no person can tell where infantile paralysis will strike in 1946, Hamlin and Jones County Attention of Herald readers is need to be well prepared to meet strike. Half of the March of Dimes contributions go to the National Foundation for Infantile Paralysis.

Witt's Cornish Entries Place in Wichita Show

I. R. Witt of Hamlin copped 12 placings at the Texhoma Poultry Exat Wichita Falls, The Herald learns this week.

COUNTY JUDGE AT CHICAGO MEETING OF ROAD BUILDERS

County Judge Gilbert B. Smith of Jones County is in Chicago this week where he is attending the American Road Builders Association convention. The convention opened Monday and will continue through today (Thursday).

Accompanying the county judge Can Wear?" has become the watch- avrage of \$2,500 a year and treat- for the past year will be read, and were Mrs. Smith and County Judge candidates for new directors will be E. C. Grindstaff and Mrs. Grindstaff of Ballinger. Judge Grindstaff is president of the West Texas County Judges and Commissioners Association.

> The American Road Builders Association conclave is being held in the Stevens Hotel. It is fostering organization of an American Institute of Local Highway Administrationto be composed of units in counties and cities of the nation.

> Judge Smith, The Herald is advised, has been selected by the national organization's board of directors to be temporary chairman of the sessions at which the institute will be organized.

> Smith also will attend the meeting as an official of the Texas Association of County Officials.

Vets to Organize VFW Unit Tuesday Evening

Organization meeting for veterans of the two World Wars will be held Tuesday evening, January 22, 7:00 o'clock, in the basement of the Hamlin Methodist Church, according to Lewis Yates, reently discharged vet.

Officers for the local chapter of Veterans of Foreign Wars will be elected and installed at the meeting. A group of VFW men from Abilene will be present to assist in the cere-

All ex-service men of the Hamlin area are invited to attend the meeting, Yates declares.

Pied Pipers Lose Third Game to Throckmorton

Throckmorton, in a game followed closely at Throckmorton Friday night by sports fans of this area, defeated Pamlin's Pied Pipers by a tally of

This game gave Hamlin a standing in the district of .333 per cent, with one win and two losses out of three conference games. Throckmorton and Anson had perfect records with no losses through the week-end.

Throckmorton, with one of the tallest basketball teams in West Texas, remains unbeaten, as a result of the Hamlin tilt, in the District 5-A eastern section basketball cam-

In a game Friday evening between the B teams, Throckmorton beat Hamlin 18 to 4.

Fine Wetting Falls in Area

Snow and Sleet of Week-End Set Pattern for Slow Rain and More Snow First of This Week

Hamlin area range and farm were greatly benefitted last Thursday by snow that was preceded by rain and sleet. The New Year's first install. ment of moisture marked up .43 of an inch in all.

Additional moisture fell Monday in the area, which by night Monday totaled more than one-half inch.

During the early morning hours last Thursday intermittent waves of fine, peppery sleet broke through the overcast to give Hamlin a taste of winter. Sleet was sandwiched in with rain until clouds in the graying skies shifted about 8:45 a. m. and changed air currents brought snowwith snow flakes seemingly the larg-

est that have fallen here in years. Following Thursday's snow, dirt roads were slippery and dangerous Friday when a brief "thaw" set in.

Overcast skies Saturday morning brought the temperature down to the freezing point-32 degrees-but by mid-afternoon sunshine and a diminishing of the week-end norther brought considerable relief from the weather.

Area farmers and ranchers report small grains considerably helped by the sleet and snow. Mildness of the spell helped not only bring livestock through in good shape, but kept "shrinkage" of feeder stock at a

The first-of-the-week rain, which began about 1:30 o'clock Monday morning, fell slowly and proved a ground soaker. Not only were fields of small grain benefitted, but area farmers report moisture supply for farm lands was greatly helped by

Rainfall for 1946 to date through Monday stood at .91 of an inch.

Due to mild temperature that prevailed Monday, livestock got through with a minimum of damage.

Jones County One of 11 in Area Showing Cotton Yield Increase

Jones County is one of the 11 West Texas counties, according to West Texas Today, West Texas Chamber of Commerce magazine, which reported more ginnings than a year ago.

In addition to Jones, other counties reporting more cotton ginned in 1945 than in 1944 include Donley, El Paso, Gray, Hall, Hudspeth, King, Knox, McLennan, Runnels and Tom

Generally the cotton crop in West Texas was very short. New estimate for the nation is 9,195,000 bales, compared with 9,368,000 bales estimated six weeks ago.

Harvesting acreage, it will be significantly noted, has fallen from the 10-year average of 25,616,000 acres to 17,688,000 acres for 1945.

Hawley Negro Indicted For Burglary of Home

Among indictments returned last week by the 104th District grand jury at Anson was one against Jim Garner, negro, who was indicted on a charge of burglarizing a negro home near Hawley.

Garner, the indictment sets forth, burglarized the residence of another negro near Hawley December 11 and took \$53 in money.

EARLY POSTMASTER

While in town Monday O. R. Burnham, who lives three miles north of McCaulley, in speaking of Hamlin, recalled how his father, the late B. H. Burnham, built Hamlin's first house.

B. H. Burnham moved to this country in 1889, and settled four miles west of Hamlin. He ran the Hamlin post office for a number of years, and will be remembered by old-timers of this area.

1c Ollie Ray Hennington Weds Santone Girl

Betty Ruth Morrison, daughter of Mr. and Mrs. Dale N. Morrison of San Antonio, became the bride of Ollie Ray Hennington of McCaulley in the Goddard Memorial Church in Fort Smith, Arkansas, last Sunday at 5:00 o'clock. The Rev. O. E. Goddard, grandfather of the bride, performed the ceremony.

The bride is a graduate of Mc-Murry College, Abilene, and has done graduate work at S. M. U. and the University of Hawaii. Mr. Hennington is a graduate of McCaulley High School and McMurry College. He has recently been discharged from the armed services, having served overseas in Australia, New Guinea and the Philippines. He will enroll in the University of Texas soon. Ollis Ray is the son of Mr. and Mrs. O. T. Hennington of McCaulley. His sister, Mrs. Paul Benhing, and husband of Oklahoma attended the wedding. Our congratulations to this fine young couple.

IMMUNIZATION FOR DIPHTHERIA URGED BY HEALTH OFFICER

All Hamlin area children should be immunized against diphtheria at a very arly age, according to statement on the subject released this week by the Texas State Department of Health, explaining that toxoid without danger can safeguard youngsters against this serious and killing disease of childhood.

officer, urges all parents to have Kinney Funeral Home directed the their children, who are not already arrangements. protected, immunized at once.

ger should be inoculated immediate-

"Babies should be immunized by the age of eight or nine months," Dr. Cox advised. "A first dose of toxoid mixed breed steers he bought last is recommended by authorities on the spring. Mr. Turner bought the steers care of infants by the age of eight when he had a lot of surplus grass. or nine months, and sometimes as early as six months. A second dose is usually given later."

To maintain immunity at a high level, Dr. Cox emphasized that a reinforcing dose of toxoid is advised when a child is old enough to enter school or have a Schick test made. Children who enter school or kindergarten this year without this additional safeguard or without ever having been immunized certainly should be protected without any further delay, the state health officer

Phelps & Bell

"Hey, Ref-aren't you out of bounds?"

In basketball or business, Americans expect fair play all down the line. In basketball, the referee is there to see that the game is played according to the rules. But he's not a

In business, the referee is the government, which establishes regulations for fair practices.

But when government goes beyond governing and into business and competes with its own tax paying citizens, the American tradition of fair play is set aside. The referee then becomes a player, and he takes advantages that are denied to all the other players in the game.

Take government-owned or subsidized electric power systems, for example. They pay no taxes. When they need money, they call on our U. S. Treasury funds and get it at little or no interest. If they have loses, through political management, why worry? You, as a taxpayer, will have to take

Business-managed power systems, on the other hand, do not have these special government privileges. They pay their full share of taxes, pay fair interest on any loans.

It is a tribute to American self-reliance that tax-paying, self-supporting companies supply over four-fifths of the tremendous amount of electricity used in this country.

The same forethought and experience which furnished the required electric power to win a global war will continue to assure America dependable-and cheap-electric service for a postwar world. And businessmen can do the job better

WINGS OVER HAMLIN WON'T HAPPEN

With each passing month the younger men of Hamlin run into a new reason for an airport for Hamlin. Just mere talk of the project is accomplishing nothing, and the time is rapidly approaching when we must take action if we really want an airport here.

Already, the major air lines of the nation have mapped routes for feeder lines from their main lines-lines that will haul commercial freight and express and make the orchards of California and Florida not more than six to eight hours away.

Aviation, with addition of radar ground control for bringing in planes safely during any kind of weather, plus jet speeds of 500 to 600 miles per hour, make it imperative that all communities which want a part in the gigantic program ahead have something definite to offer airlines and private pilots in the way of an adequate airport and service facilities.

PAY YOUR POLL TAX AND VOTE!

Lest you forget, paying your poll tax before February 1 is one of the most important contributions you can make as a good citizen to the American form of government.

In this election year politics is getting back to normal, and only through full strength voting by citizens here and elsewhere over the nation can we elect the kind of county, state and federal officials who will give us the truly representative type of government.

Unfortunately we do not have another political aspirant yet to color Texas politics like James E. Ferguson, but we doubtless will run across a candidate before the 1946 primary who will add just as much heat and vigor to politics.

It seems as though W. Lee O'Daniel and his Hill Billies are now in some kind of a "dormant" political stage, but one cannot really blame W. Lee O. right now because he seems to be a pretty big Washington apartment house owner-at least able to move tenants around as he chooses-and he seems to have made pretty good from his political news-

Unless every citizen pays his poll tax here and elsewhere, we might wake up after elections and find we had a governor who went in for jitterbugging, a lady senator who is "agin" wearing nylons-or going to extremes, a trusted public servant preaching heresy by declaring a woman's place is in the home!

GOVERNMENT IS STILL RIDING HERD

The United States Department of Agriculture still seems to be riding herd with the livestock situation, and stockmen of this area are hopeful that some of the government hobbles will be untied before summer arrives.

Latest blast at the livestock industry was given over the week-end by Clinton P. Anderson, secretary of agriculture, who advises cattlemen pressing for removal of price controls-along with subsidies June 30-not to "holler until you're hurt."

Anderson, among other things, contends at this time there are too many cattle in the west-from a long range feeding capacity-and urgently requests sotckmen to get rid of "flinyt-boned old critters" and cull down

Well do Hamlin area ranchers remember how OPA got the meat situation in such a mess that no one could tell the past three years where the stockman would find himself. Well do we remember how the nation's livestock population was "culled" in 1934 when the government killed hundreds of thousands of cattle over the country. Mr. Anderson's statement that more culling needs to be done is about five years late here, for herds in this area have already been culled of unprofitable animals, and blood lines of herds have been consistently improved by the best bulls money could buy. If we have less talk and more action from Washington, we feel the cattle industry can well hold its own and keep plenty of beef going to market for any reasonable requirements!

Silver and gold are not the only coin; virtue too passes current all over the world .- Euripides.

Prudence is the necessary ingredient in all the virtues, without which they degenerate into folly and excess .- Jeremy Collier.

"Think on these things"

THE NEWNESS OF CHRISTIANITY

CHRISTIANITY is an original religion. It was not handed down by tradition; it was not the outgrowth of human philosophy or reason; it was not compiled from preceding religions, but it was new.

First, Christianity is the only religion thus far developed in the world that is adapted to all mankind, to every individual, race and nation. It commands all that is for the best good of man; it forbids all that is injurious and wrong.

Second, Christianity is new in that it is the only religion in the world that promises complete forgiveness of sins (Hebrews 10:3-11, II Corinthians 5:17).

Third, Christianity is new or original in that it directly promises eternal life-an individual, personal, immortal spirit clothed with an immortal body. The religion of Jesus answered the question of Job of the long ago (Job 14:14). See also I Corinthians 15:42-57).

Fourth, Christianity is new or original in that it teaches the fatherhood of God and the brotherhood of man. There is nothing in heathen religion that teaches this relationship. No such word as "mankind" is found in the human language until the days of Jesus. He taught all men to pray, "Our Father who art in heaven." Paul said, "He hath made of one blood all nations of men to dwell on all the face of the earth" (Acts 17:24).

Friends, this new religion of Jesus is the world's only hope. What is your attitude toward it? What efforts are you putting forth to see that your children are taught it? Frightful responsibility! And yet so lightly treated!

Hamlin Folks Thanked For Yule Gifts for Yanks

Mayor Joe Culbertson of Hamlin this week received a personal letter from W. W. Wendland, chairman of the Christmas Gifts for Yanks campaign at Temple, expressing thanks for the donations from Hamlin and the Hamlin area in the drive.

"Contributions of many friends over the state made the presentation of gifts by me to General Betha possible, and I want you to thank as many people as possible for me who contributed to the program.

"Let us remember," Wendland writes, "that there will be veterans in our hospitals for many years to come, and organize ourselves for the coming program. Again thanking you for your cooperation, I remain,

"Sincerely yours-W. W. Wendland, Chairman, Christmas Gifts for

WHAT CAN YOU SPARE THAT THEY CAN WEAR?

Sit by YOUR Fireside

... and think about this one!

All that's left of their hearth and home is what you see in this picture.

Among the things they desperately need to start a new life is clothing. What can you spare that they can wear?

Goal of the Victory Clothing Collection is 100,000,000 garments, plus shoes and bedding. If your contribution seems negligible, bear this in mind: Every garment you give means one more human being saved from cold or sickness or possibly death. Your spare clothing will be distributed free, without discrimination, to victims of Nazi and Jap oppression in Europe, the Philippines, and the Far East.

Dig into your attics, trunks, and closets today ... dig out all the clothing you can spare ... take it to your local collection depot now.

What YOU Can Do!

Get together all the clothing you can spare.

Take it to your local collection depot immediately. Volunteer some spare time to

your local committee.

COMMENT NO. 1

We have in Congress some few We see in the paper where Sena- brilliant and honest members; others tor Pappy finally ousted the 80-year- are even worse than whipper-snapold man from his big apartment pers. If we look back on the record house in Washington by order of the of some of our congressmen we find court - not because the old man absolutely a blank, who have done wouldn't or couldn't pay his rent, nothing but draw a salary of \$10,000

The whole world is in a turmoil. A Mrs. Milener has been employed Trying times ar ahead even for men of ability. If the voters fail to cast their votes wisely, then the American people are to blame for any breakdown in our form of govern-

Men cannot live by bread alone; neither can man-made laws do justice to civilization unless the men who make the laws are honest, capaers. We must be more certain of the ability of our leaders if we expect to survive as a world pattern. Democracy as we know it is being tried as never before, not only in America, but the people of the earth are looking in our direction for leadership. Will we, by our ignorance at the ballot box, elect to office either local, state or national men and women who have been tried and found wanting?

Frankly, neighbor, if you pay \$1.75 for a poll tax and you go to the polls to vote and know not what or how to vote for the best interests of your country, then your \$1.75 has been unwisely spent and you and your country are no better off than the fellow who stayed at home and twiddled his thumbs while Rome burned. Yes, we all are mistaken

OPA Fights Movement To Raise Butter Ceiling

Hamlin people, already taking note of the high cost of living, received another surprise this week when considerable strength was revealed behind a movement to increase the price of butter 18 cents per pound.

Hamlin folks, however, have an ally in the Office of Price Adminis-

Hamlin folks consume over 1,000 pounds of butter per month, and find it getting scarcer. A sharp scarcity of butter during the first three months of 1946 is predicted, and consumers do not need the extra burden, it is felt, of higher prices.

at times in candidates-some make flowery speeches, some pick the banjo and sing for votes, others use the whispering campaign method, but, after all is said and done, there still remains that question of qualification, ability and honesty .- A Darden-

If you are waiting for a telephone, you can be sure that our record of your request, carefully kept by the service representative in the business office, will guarantee your getting service in your proper turn.

Mayor of Hamlin JOE CULBERTSON

Warning!

Because of recent interference with Fire Department personnel in fight-

ing fires, we call attention of the

people of Hamlin to the following

Section 1 .- Upon the approach of any vehicle or apparatus of

the Fire Department of this City answering an alarm of fire,

the driver of any vehicle other than a vehicle of the aforesaid

Fire Department shall drive as closely as possible to the right

hand curb and stop, and shall not follow within three hundred

(300) feet after the said vehicle o rapparatus of said Fire De-

partment has passed. No vehicle, except by direction of the

Chief of the Fire Department, or other officer of said Fire

Department, shall approach or park within three hundred (300)

of the provisions of this ordinance, or who shall fail or refuse

to comply therewith, shall upon conviction be fined any one sum

City officers are to enforce provi-

sions of the ordinance by fines if

necessary. By order of the

Section 3 .- Any person who shall violate in any way any
